

I was distressed to hear that there is a chance that K-LOVE radio would be taken off the air by a FCC ruling. I am writing to voice my opinion that this would be a mistake. K-LOVE is very important to our lives. We live in two parts of the country during the year and K-LOVE brings a continuity to ours lives. I know that what I am listening to so are my children 100s of miles away. I ther positive message that K-LOVE broadcasts is up lifting and brings hope which in this day and age is something that is needed. More is needed not less. Our country is so big and families live so far apart and the service that K-LOVE brings in its news and information is broadcast out to my whole family at the sametime. Pray requests, concert info, news and other. The reach K-LOVE has brings a whole segment of America together at one time. We need this to continue. Thank you. Valerie Cook
